Revit Architecture 2010 Fundamentals – 4 days

Course Description

The objective of this course is to enable students to create full 3D architectural project models and set them up in working drawings. The course focuses on basic tools that the majority of users will need to work with in Revit Architecture 2010.

Course Prerequisite

No previous CAD experience is necessary. However, architectural design, drafting, or engineering experience is highly recommended. It is also recommended that the student have a working knowledge of Microsoft® Windows® XP or Microsoft® Windows® 2000.

Course Length and Class Hours

- The Revit Architecture 2010 Fundamentals course is a three (4) day course.
- Training hours for the course are from 8:30 am to 4:30 pm.

Course Outline

- The Basics of Revit Architecture 2008
- Creating Views of the Model
- Setting up Levels and Grids
- Making Design Changes
- Adding Components to the Model
- Creating Floors
- Creating Ceilings
- Creating Roofs
- Creating Stairs, Railings and Ramps
- Creating Curtain Walls
